INSPIRATION OF WATER

HEALTH & WELL-BEING

Marvel in restorative technologies derived from Oriental therapeutic secrets

Cultural wealth and long-standing history aside, Japan stands tall as one of the world's greatest sources of treasured knowledge passed down through generations, as well as, groundbreaking inventive technologies. Regardless of how busy their lives are in this modern world, the Japanese still adhere to many of their long-inherited values. Take bathing for instance. Whenever they have a chance, they will plunge themselves into hot ONZEN whirlpools emerging from natural waterfalls. They believe that this steam therapy energizes their body and restores the spirits of the samurais.

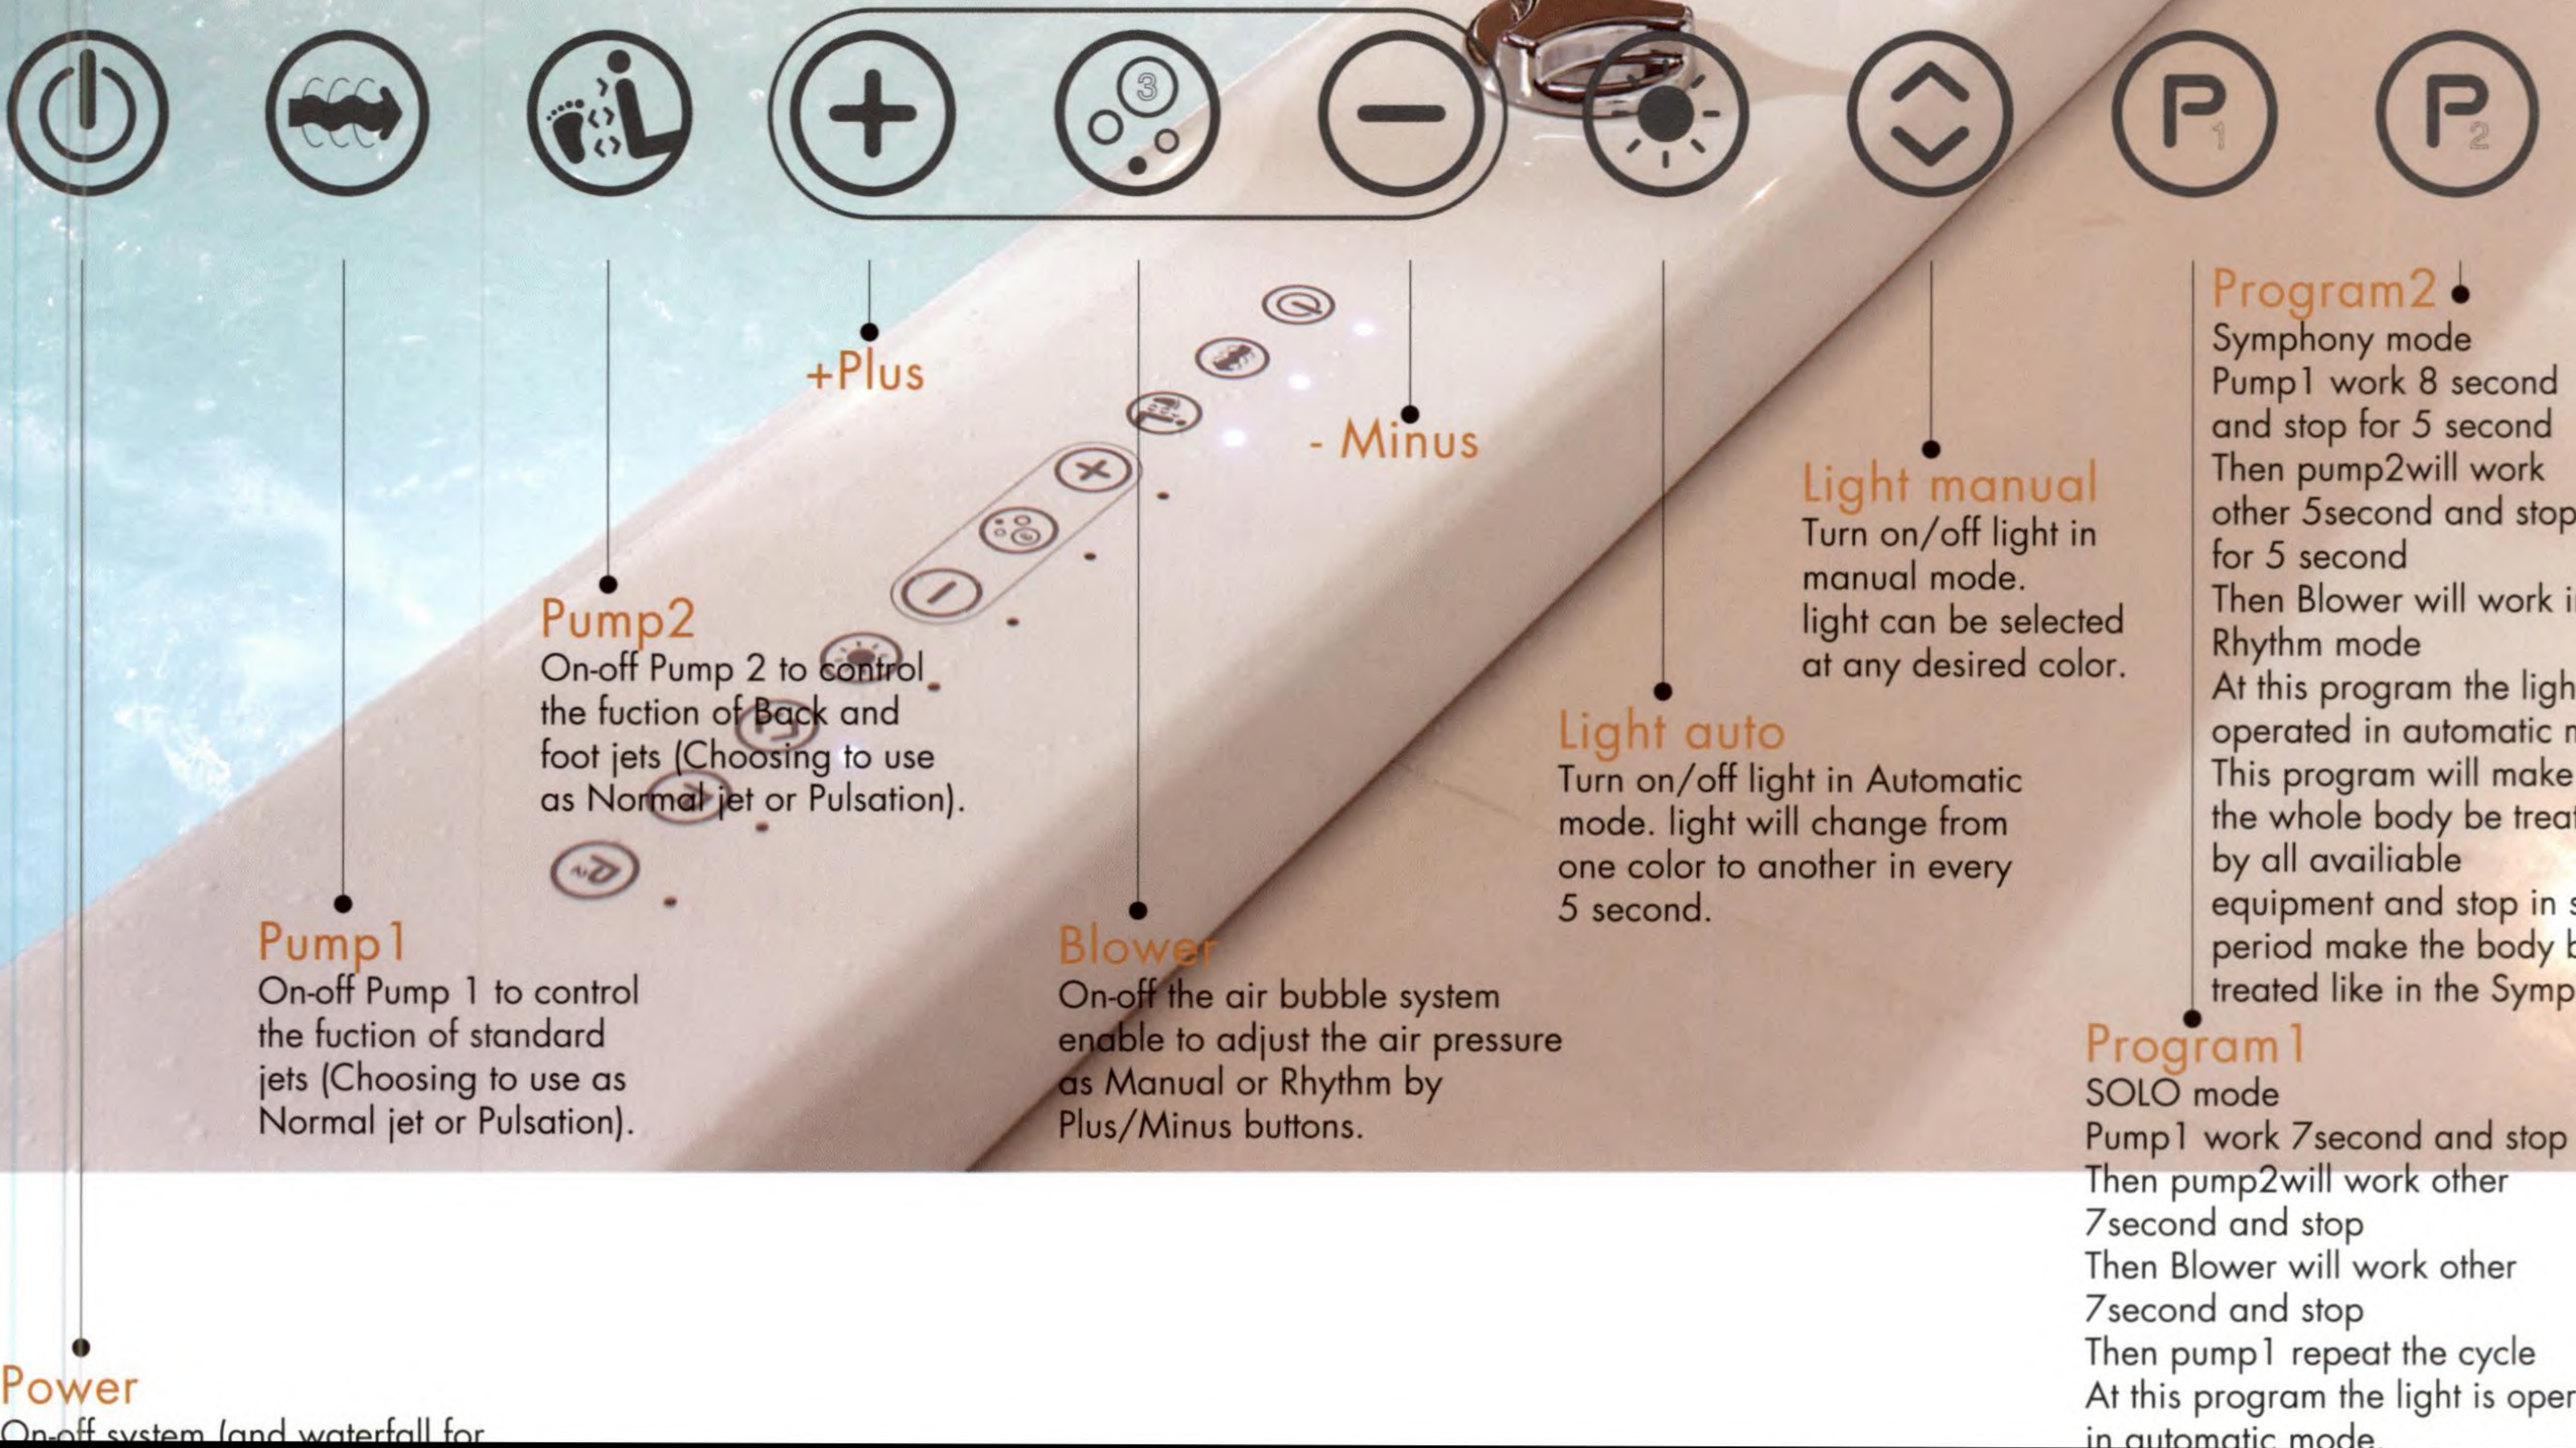

Lying still and gazing pouring drops of water that caress away all your worries is called 'TAKIYU' in Japanese. The massaging streams from hot waterfalls work wonders in easing away shoulder and neck pains. The calming vortexes underneath also help improve concentration and mental power. All these contribute to the natural therapeutic powers that indulge you in total body and mind rejuvenation.

ONZEN, the world's leading innovator in life-enriching bath technologies, incorporates Oriental therapeutic secrets with sophisticated modern technologies to create innovative ONZEN-inspired bathtubs. Feel totally invigorated long after the bath as if you have just been through a real 'TAKIYU' experience. The unique 'Feel Control' feature lets you fine-tune all sophisticated functions of your elegant bathtub with your fingertips. Water-massaging pressure is adjustable with 7 comfortable levels. Underwater lighting

Feel Control

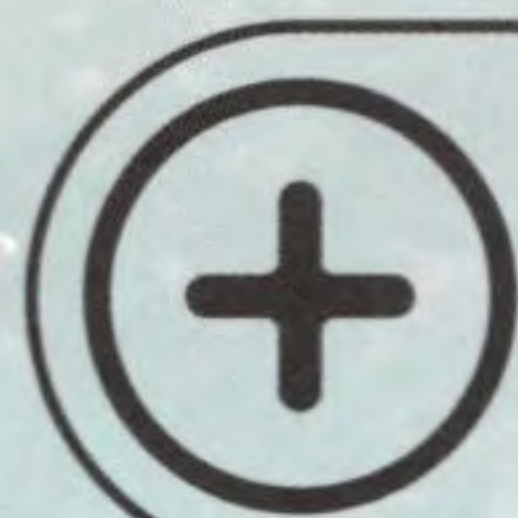

A new innovative tub control system that fulfills your feeling of absolute revitalization

All of our bathtubs are specially created for your happiness. Not only concentrating with great shape and serviceable bath tubs, but Cristina and Onzen also make the strong efforts to continue searching the latest technology to help the user more saving, safe and convenient, specially desirable for your feeling. And today Cristina and Onzen innovate new technology to enhance your bath more relaxing along with extremely convenient fulfilled your feeling. Feel Control now befits the latest innovation of bath control happens the user a pleasant feeling of bath. With its full function computerized control panel which is easy to use through its instant bath programs, and providing different control peds to respond to whatever desires, the user will be satisfied at all.

A VARIETY OF SPA TREATMENTS FOR MAKING YOUR ONZEN BATHING PERFECT AND BEING HARMONIZED.

CHROMO Therapy

CHROMO THERAPY Onzen recognizes the chromo therapy is one of spa method able to help you to regain the balance of life and simply receive the physical and mental treatment. Its bath tub is engineered with hi-technology LED light equipment. These chromo therapy lights action with 10 colors which the user can activate any color as his desire. Each color has its own spectrum giving particular treatment qualifications. Certainly the colors help us to gain the circulation of the body improvement, relaxation and stress reduction which lead our body and mind to regain the balance of nature.

HYDRO Therapy

HYDRO THERAPY Hydro therapy is the treatment of disease through the uses of water which are capable in many ways. The water massage is the best of them because of its easiness and safe. The healing and recuperative benefits of hydro therapy are conventionally the treatment of muscle weakness, balance disorders, diabetes and other diseases. The hydro therapy ĩpurposed bath tub Onzen inspired is fully equipped with the quality whirlpool and air pool devices. All the jets are designed and innovated to deliver suitable pressure of water to achieve in all treatments and help increasing oxygen into the water giving you more benefits of health and well being.

OZONE Therapy

OZONE THERAPY With the qualification of having 3 molecules of Oxygen, Ozone can inactivate many diseases, getting rid of toxin, cleaning the air and purifying the water. Onzen's bath tub is installed with the Ozonier, the hi-end technology to increase Oxygen into the water which gains the cleaner breath to make the user feel fresh and energetic. The pure ozone is absorbed into our blood system through the hair follicles that were opened by the heat of water, and it delivers benefits of blood purifying, organ rejuvenation, and physical and mental balance. Consequently, lasting our life longer.

HYDROTHERMAL Therapy

HYDROTHERMAL THERAPY Hydrothermal is the use of water with different suitable temperatures to effect to human body for regaining various benefits of treatment, especially revitalizing for a balance of life. The duration and temperature are the major factor to gain different benefits. However, 20 minutes are the suitable duration for hydrothermal therapy treatment. Hot water, 36-38 Celsius degrees, comforts muscular and reduces confusion in mind. Warm water, 29-36 Celsius degrees, gives the most relaxation and a sleep tight. And cold water, 10-29 Celsius degrees, stimulates circulation and organic systems of the whole body. Onzen develops its bath tub with the superior quality material of durability and well-design with ergonomic concept to comfort when taking a long time bath. The user will be

AROMA Therapy

AROMA THERAPY Aroma Therapy is a spa treatment by the use of essential oil which is mostly synthesized from natural herbs. The benefits of essential oil at first step are increasing good atmosphere that effects to mind and emotion. Together, each essential oil has its own particular benefit and qualification in healing and treatment. Rose is used for healing the regret feeling and brightening your mind while Lavender is used for relaxation and easy sleep. Onzen's bath tub is designed with the easy-to-clean material which helps your bathing able to perfectly utilize the aroma therapy. No way to remain any dirty trace from the essential oil that is dropped into the water. Moreover, the material is ruled to the environmental preservation which is the unique and distinctive from other companies.

WHIRLPOOL & AIRPOOL SYSTEM

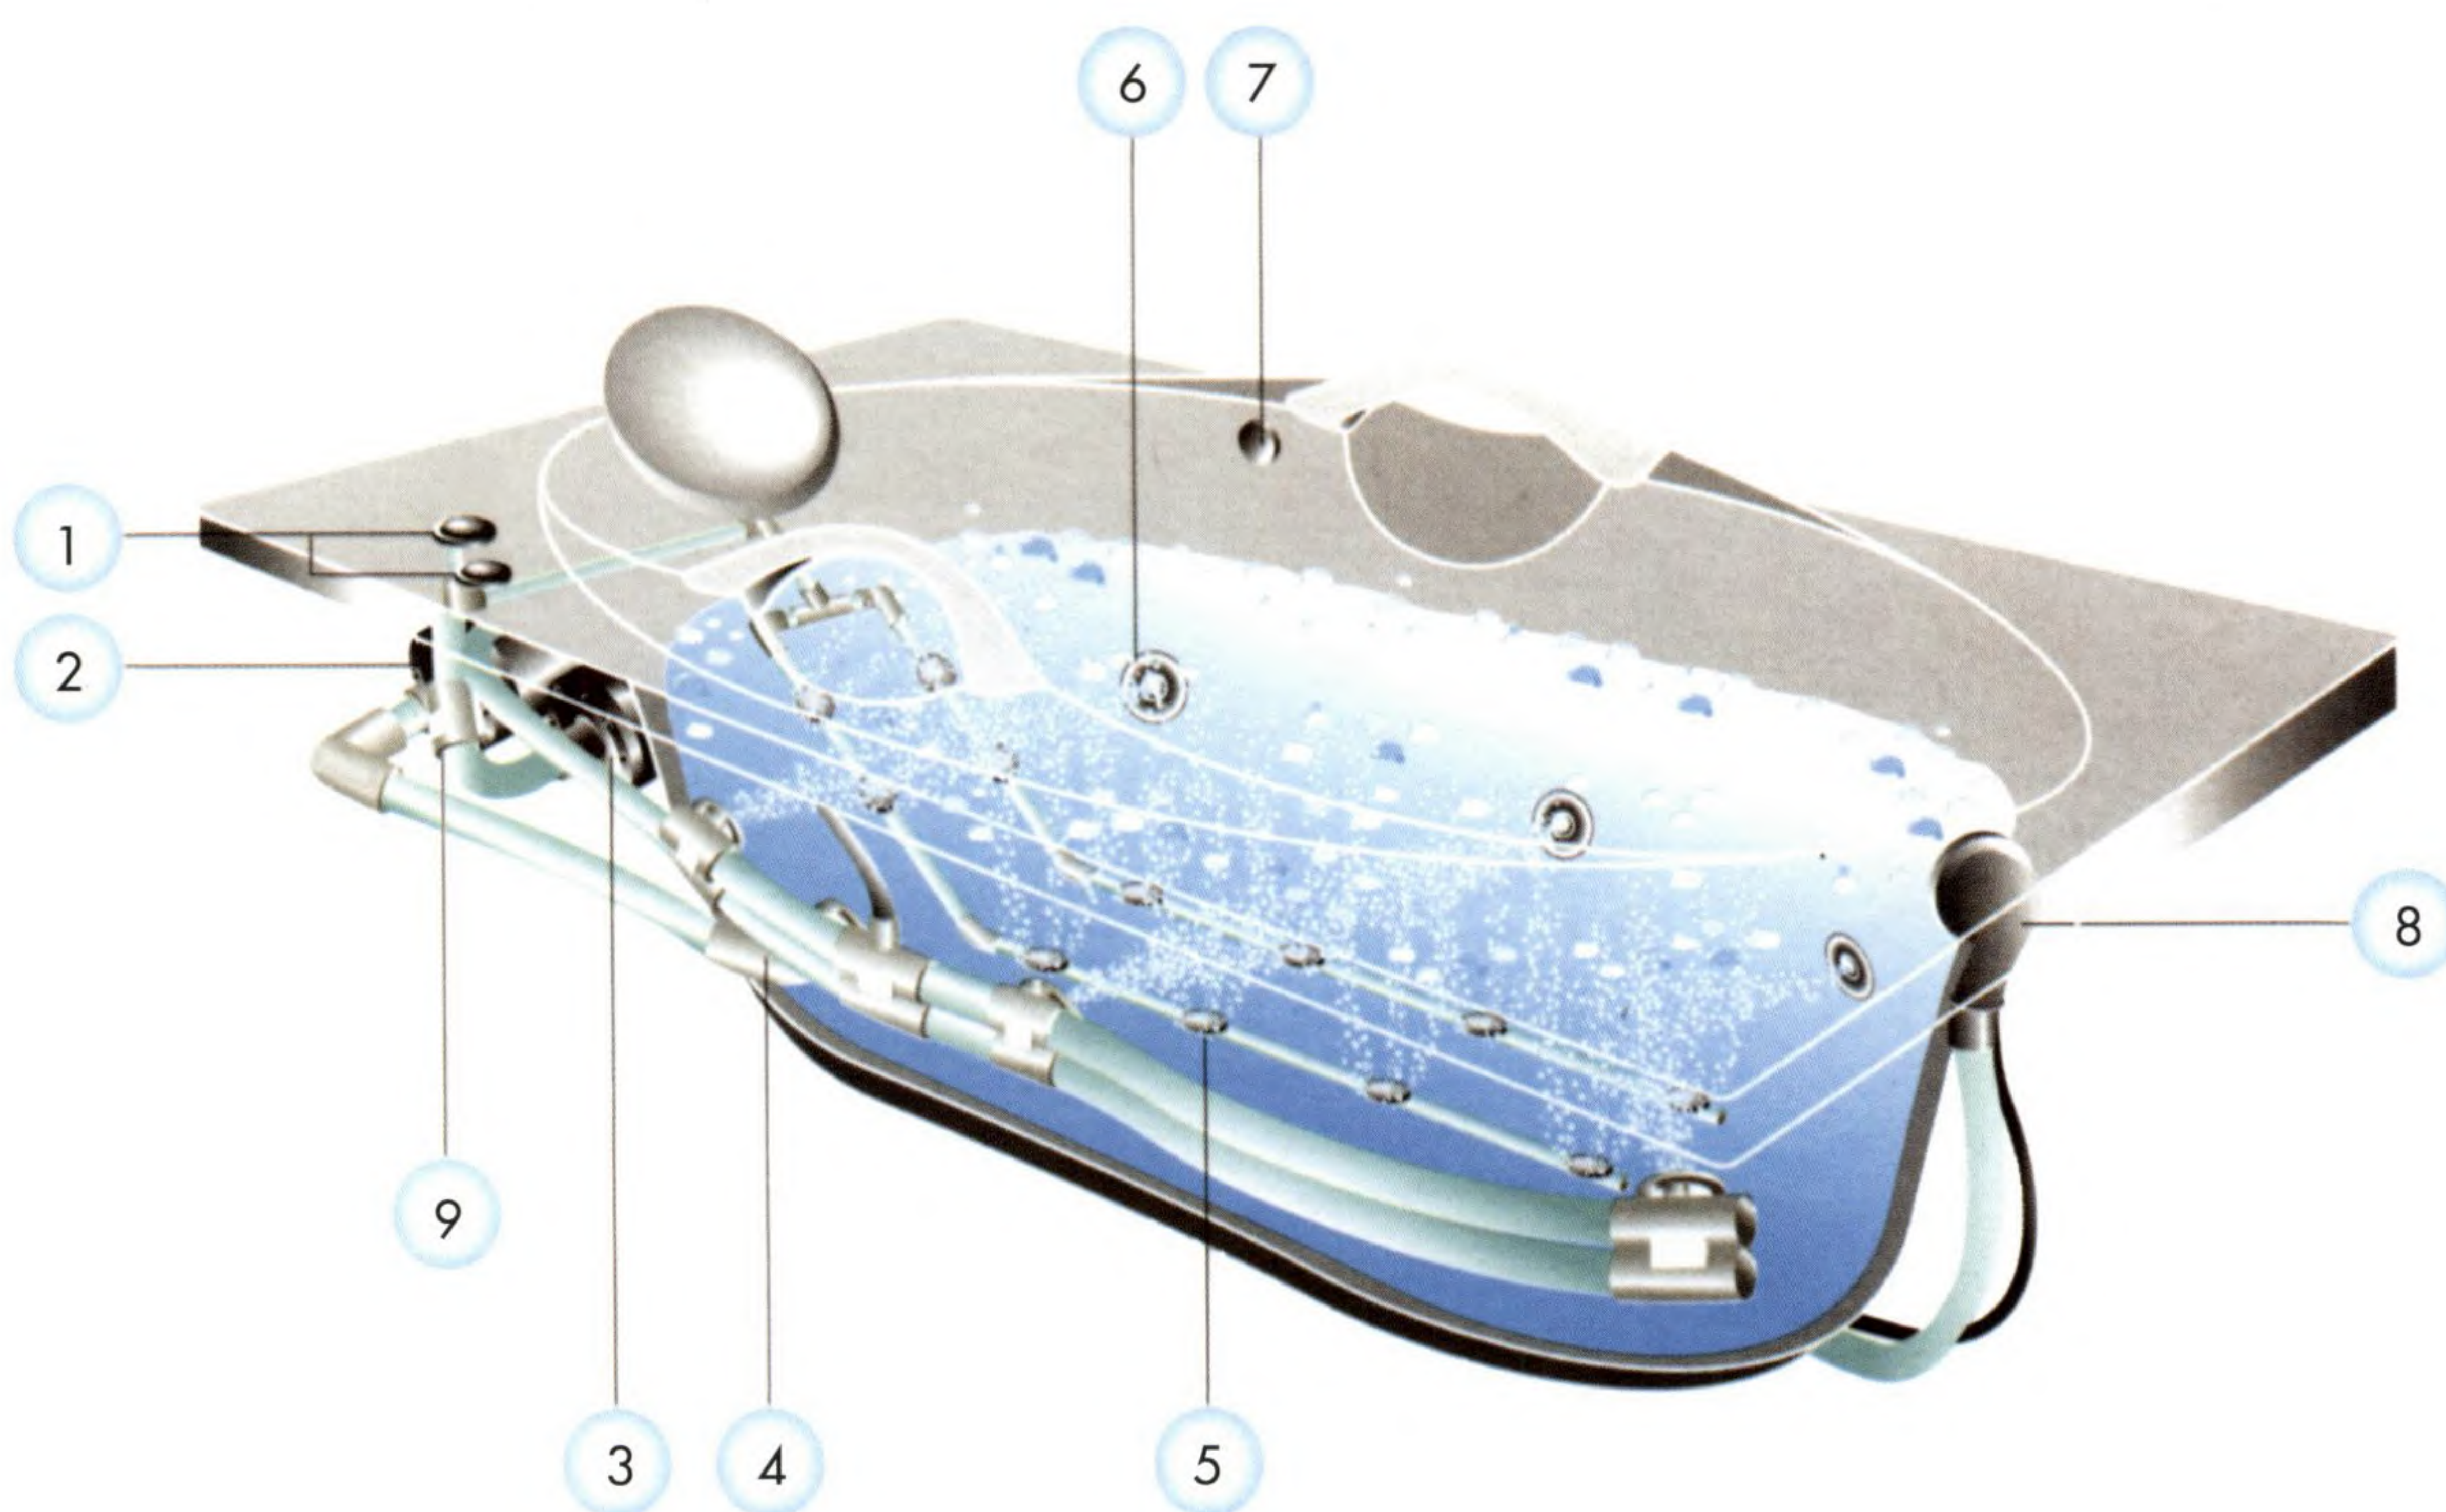

In Cristina whirlpools, you can do more than just bathing. Relax and take time to enjoy the therapeutic feeling of the water, which soothes and takes those everyday tensions, aches and pains away. Most of our luxurious baths can be fitted with a Whirlpool, Airpool or whirlpool+Airpool so you needn't settle for just an ordinary bath. Inquire our showroom technician as to the unit of your choice, if it could be equipped with any kind system
